

**DODDRIDGE COUNTY COMMISSION
DODDRIDGE COUNTY, WEST VIRGINIA**

DODDRIDGE COUNTY ADMINISTRATIVE ANNEX – FF&E CONTRACT

ADDENDUM #1

SEPTEMBER 8, 2022

THRASHER PROJECT #101-060-00981.640

TO WHOM IT MAY CONCERN:

A non-mandatory Pre-Bid Conference was held on Thursday, September 1, 2022, on the above-referenced project. The following are clarifications and responses to questions posed by contractors for the above referenced project.

A. GENERAL

1. **THE BID FORM HAS BEEN REVISED. PLEASE USE THE REVISED BID FORM WHEN PREPARING YOUR BID PACKAGE FOR THIS PROJECT.**
2. **THE BID FORM PROVIDES A LINE FOR ‘NON-SPECIFIED ALTERNATE’. UNLESS APPROVED PRIOR TO THE BID SUBMISSION, BIDDERS SHALL PROVIDE PRODUCT DATA INFORMATION WITH THE BID, SUFFICIENT TO VERIFY THAT THE PROPOSED ALTERNATE IS EQUIVALANT TO THE BASIS-OF-DESIGN.**

B. SPECIFICATIONS

1. REPLACE the original Matrix and Bid Form with the Revised Matrix and Bid Form attached to this Addendum. Revisions are indicated in color.

C. DRAWINGS

None on this Addendum.

D. QUESTIONS AND RESPONSES

Question 1: What ‘grades’ should the seating fabric be?

Answer 1: Fabric grades are listed in the Items Specifications packet under each item where needed.

Question 2: Is there a possibility to have multiple vendors for the project?

Answer 2: Yes. Please refer to SUMMARY 011000-1.7.B.

Question 3: Were floor plans issued?

Answer 3: Yes. FLOOR PLANS are included, see the last pages in the Specification Manual.

Question 4: Will the elevator be operational and available for use?

Answer 4: Yes. Please refer to TEMPORARY FACILTITES AND CONTROLS 01500-3.1.E.

Question 5: Are the TVs to be installed, and are anchors to be included?

Answer 5: Yes and yes. Refer to Matrix and Item Specifications. Installation shall include connections and attachments, where applicable.

Question 6: Is there a brand for item S7 – podium?

Answer 6: Yes. Indicated in the Item Specifications.

Question 7: Is there room on site for a 53’ trailer?

Answer 7: It is recommended the Vendor(s) review this with their delivery coordinators. During the building construction some deliveries were made with 53’ trailers, but it was extremely challenging due to tight turning radii into and out of the Site. A shorter trailer will ease the access challenges.

Question 8: In room 133, there seems to be 3 desks but only 2 chairs. Can you confirm or elaborate?

Answer 8: Room 133 contains 3 desks and 3 office chairs, but only 2 visitor chairs. That is correct.

Question 9: The furniture needed for room 233 differs from plan to Matrix. Which is correct?

Answer 9: The Matrix has been updated and is attached to this Addendum.

Question 10: Should the cubicle divider return be side or front? What about connecting brackets?

Answer 10: Different furniture system take different approaches thus some ambiguity is intentional. Pricing should consider all ancillary components required to complete the system.

Question 11: Bid Item G1 – How many are Grade 7 fabric and how many are Grade 8 Vinyl?

Answer 11: 10 of the item G1s are to be Grade 8 Vinyl – these are located in the Lobby and Waiting Rooms. The balance of G1s, 53 total, are to be Grade 8 fabric, located in the Offices.

Question 12: On the substitutes, is it acceptable to show it on the bid document as a substitute you showed us in the meeting and send coordinating brochures with bid? Or do we need to do three copies ahead of time per item?

Answer 12: Substitutes are applicable AFTER the bid award. We can review ‘no-specified alternates’ before bidding or during the post bid evaluation. To avoid the risk of having an alternate rejected, you may provide product data prior to bid day and we will try to review it.

Question 13: Alternate Product for Bid Item S7 – Podiums Direct Model #CLR235-EV Wood Podium Oklahoma Sound (National Public Seating) Model #950/901 as Alternate. Link included: https://www.nationalpublicseating.com/sell_sheets/SellSheet_950-901%20Sept%203.pdf

Answer 13: We accept this as an alternate.

Question 14: Alternate Product for Bid Item S1 – National Business Furniture 26.5” D 5-Drawer Letter Size Vertical File Model #34505
Global Furniture Model #26-501 5 Drawer Letter Size Vertical File

Answer 14: We accept this as an alternate.

Question 15: Alternate Product for Bid Item S2 – National Business Furniture 25” D 4 Drawer Letter/Legal Size Fireproof Vertical File Model #34505
Fire King Patriot Collection Model #4P1825CBL/CPA-4 Drawer Letter/Legal Size Fireproof Vertical File

Answer 15: We accept this as an alternate.

Question 16: Would you please clarify which Model TFD244 Laundry Nation Folding Laundry Table is preferred for Bid Item G9 – with 4’ Upper Shelf, with 4’ Upper Shelf

and TR-2F Hanging Hooks, with No Upper Shelf, or with No Upper Shelf and TR-2F Hanging Hooks?

Answer 16: No upper shelf or hooks.

Question 17: The café chairs are being shown as fabric. It is recommended that you consider changing them to vinyl or a shell.

Answer 17: Please change Item 9 to have Grade 8 Vinyl.

E. CLARIFICATIONS

1. Material/Color Selections: Wood and faux-wood materials / plastic laminates may be selected to coordinate with, as closely as possible, match the wood doors in the Annex Building: reference VT Industries Architectural Wood Doors, Veneer: Oak Red, Finish: Oasis. A sample of that door material is attached top this Addendum.

Good luck to everyone and thank you for your interest in the project.

Sincerely,

THE THRASHER GROUP, INC.

Kenton Blackwood
Project Manager

Date Submitted: 2022 Time: 110636

Customer: A.G. MAURO-BRIDGEPORT, OH

Job Name: DODDRIDGE CO COURTHOUSE ANNEX

Location:

File #: 20210326260-001 Shop Order #: 888772

Veneer: OAK RED

Cut: PL SL (FC) Grade: A GR CTRLD WD

Finish Name: OASIS Finish #: OA18

APPROVED STAMP: Please place approval stamp on back of all physical samples, returning one sample to factory prior to door fabrication.

Approved By: _____

Date Approved: _____

Comments: PSR0 / OA18

THIS SAMPLE IS FOR COLOR MATCHING AND COLOR APPROVAL ONLY. THIS SAMPLE IS NOT FOR VENEER GRADE, MATCH, ASSEMBLY, OR GRAIN APPROVAL.

Please review sample under cool white fluorescent lighting for color match approval.

Please contact your Customer Service Center Representative for price alternatives on AA grade veneers, Select White veneers, and slip-matched veneers.

NOTE: Samples older than 12 months from this date should not be used for submittal or color matching.

Date/Serial # 072721

VT's aesthetic and technological approach to factory finishing means that the finish you specify is the finish you get with every door hung in your project. Each door exhibits uniformity in stain color, texture, and dust-free sheen that's impossible to achieve in the field. First door to last.

This factory-finished sample illustrates the basic color, grain, fill, and gloss level of our finish. Wood is a natural material and will vary in color and grain from tree to tree or even within the same tree. Some doors will be lighter or darker even though they all receive the same color stain, but it's precisely those natural variations in density and texture that make wood doors so popular.

CONCERNS REGARDING "NATURAL" VENEERS

Natural Birch, Maple, and Ash may contain both heartwood and sapwood in varying degrees per WDMA I.S. 1-A and AWS quality standards. Due to these factors, consistency in cut, color, and grain is impossible. VT Industries cannot be held responsible for the natural color and grain variations within these species. To achieve the most uniform appearance, we recommend you specify Select White Birch, Maple, or Ash. All veneers submitted are Grade A veneers, book and running match, unless otherwise specified.

CONCERNS REGARDING "BARBER POLE"

While most prominent in rift and quarter-sliced oak, "barber pole" occurs in many species of veneers when book-matched. A barber pole effect is caused by having "tight" and "loose" components alternate in adjacent pieces of veneer. These "tight" and "loose" components may accept stain or reflect light differently, causing color variations. Barber pole is not considered a defect, although it may be undesirable. To minimize this effect, we recommend slip-matching your veneers.

CONCERNS REGARDING "FIGURE"

Many veneer species exhibit what is commonly referred to in the industry as "figure." This naturally occurring feature exists in all wood species, with some being more prone to it than others. The finishing process in most cases will only accentuate the figure, making it even more pronounced. Due to the nature of figure and its random placement, this inherent characteristic may not be visible in our sample presentation. Figure will range from light to medium to heavy and cannot be controlled by the manufacturer. If this is an undesirable characteristic, then a specified flitch may be required by the architect, which would have cost-related consequences to the project.
